

Brigalow Bites

Edition 1 Sunday 16 February 2025

Welcome to our first Brigalow Bites! We hope for this to become the regular communication piece with members and simplify where you need to look for information. We hope to include topical issues in the paddock, details of work happening in the area and acknowledgement of the support of collaborators and sponsors. If you want something included (or left out) just let us know.

MEETING DATE CLAIMERS

We have locked in dates for three meetings this year with the first being an afternoon meeting at the **Inverai Hall on Friday 4th April**.

A full-day meeting is scheduled for **Friday 15th August** and final meeting including the AGM is booked for **Friday 21st November**.

Pop these dates in your calendar now and stay tuned throughout the year for other opportunities to catch up.

COMMITTEE UPDATE

The committee is beavering away organising bank accounts, email and website details and negotiating sponsorship agreements. For a group that's officially 'just starting', this is important groundwork that should provide longevity for the Brigalow Farming Group.

MEMBERSHIP FEES

A reminder to those who are yet to pay their membership fees, can you please do so as soon as possible. A big thank you to those who have already paid. Contact Rob Green if you have misplaced your invoice.

OTHER BITS

- There have been some fantastic harvest results, and we look forward to discussing the good, the bad, the ugly and the amazing at our first meeting. Rumour has it the treasurer might have to cover the first shout!
- A few members took the time to visit the Pacific Seeds Foundation Farms Field Day at Allora this week. We know how fond Rick Cronin is of his hat, but he'll be looking extra fancy in the hat he won at the Field Day.
